

PINNACLE

PRODUCT INFORMATION

DISTILLERS NUTRIENT RUM

DESCRIPTION

PINNACLE RUM NUTRIENT is a complete nutrient to assist in the production of rum, cachaça and other sugar cane molasses-based spirits.

Features: It contains a balanced blend of nitrogen, vitamins and trace minerals to enable vibrant yeast growth.

Benefits: It adds essential yeast assimilable nitrogen (YAN) to enable efficient and robust fermentations and can assist in supplementing nutrient deficiencies in poor quality molasses.

APPLICATION USE

Pinnacle Rum Nutrient can be added directly to the wort of both propagator and main fermentations.

DIRECTIONS FOR USE

Pinnacle Rum Nutrient should be added to propagation and main fermenters at a dosage rate of 0.1-0.3g/L depending on the fermentation speed required and starting brix. Faster fermentations and higher starting brix may require higher dosage rates.

PACKAGING

Pinnacle Rum Nutrient is packaged in 10kg plastic buckets.

STORAGE

Pinnacle Rum Nutrient should be stored in a cool, dry place and below 30°C (86°F).
